

Renaissance Duet Bookshelf Speaker

28mm silk soft dome tweeter • 6-1/4" double magnet woofer • time aligned cabinet

Duet

The Renaissance **Duet** is an elegant and exciting 2-way speaker. The design is based around a very short transmission line that opens on the back of the speaker. The 1.1" (28mm) silk dome tweeter has a triple magnet motor system and is liquid cooled. The tweeters are matched within 0.6 dB. They are paired with a 6-1/4" (160mm) double magnet, treated paper cone woofer. The 4.2-liter cabinet is angled to produce greater depth and precise imaging. The radius design on the front edges (rounded) eliminates diffraction in the mid and high frequencies. The cabinet finish comes in piano black lacquer.

Also pictured is the ST-6 stand which is 21" high and recommended for use with the Duet.

Cabinet system	2-way speaker system, semi-transmission line
Tweeter unit	1.1" (28mm) soft dome, triple magnet, liquid cooled
Woofer unit	6-1/4" (160mm) vented double magnet, 3" (75mm) voice coil, paper cone
Frequency range	42 – 21,000 Hz ± 3dB
Impedance	6.5 Ω
Power rating	150 watts RMS
Sensitivity	89 dB SPL
Cabinet size	Height - 15" (381mm) Width - 8" (203mm) Depth - 12" (305mm)
Weight	26 lbs. (11.8 kg) each
